# Globalization, Planning and Local Economic Development

**Andrew Beer** and **Terry L. Clower**

This textbook is concerned with economic development at the local, community or regional scale. Its aim is to provide students with a comprehensive introduction to contemporary thinking about locally-based economic development, how growth can be planned and how that development can be realised. In addition to a wealth of case studies and pedagogical features, the book is also complemented by a comprehensive range of online resources. In offering a full toolkit of economic development knowledge, techniques and strategies, this text will thoroughly prepare students for a career in urban planning, transport planning, human geography and applied economic analysis.
